RULING ON ENTITLEMENT¹

On October 11, 2022, Christine Stubbs filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a left shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on October 9, 2020. Petition at 1. Petitioner further alleges that the vaccine was received in the United States, her symptoms have persisted for more than six months, and neither Petitioner, nor any other party, has ever filed any action or received or accepted compensation in the form of an award or settlement for Petitioner’s vaccine-related injury. Petition at ¶¶ 4, 34-36. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

On November 8, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 4. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of her condition for more than six months and has satisfied all legal prerequisites for compensation under the Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
